# TABLES OF CONTENTS

SOVIET PLANT PHYSIOLOGY

Volume 31, Numbers 1-6, 1984

(A translation of Fiziologiya Rastenii)

205

## Volume 31, Number 1, Part 1 January-February, 1984

| | Engl. | Russ. |
|---|---|---|
| Action of IAA and 2,4-D on Bioelectric Characteristics of Nitellopsis obtusa — L. N. Vorob'ev and L. Manusadzhyanas | 1 | 5 |
| Comparative Study of the Action of 6-Benzylaminopurine, Thidiazuron, and Cartolin on Growth of Intact Pumpkin Seedlings — É. A. Burkhanova, A. B. Fedina, Yu. A. Baskakov, and O. N. Kulaeva | 8 | 13 |
| Effect of Kinetin Treatment on Productivity and Certain Physiological Indices of Wheat under Different Conditions of Irradiance — T. V. Likholat, N. T. Nilovskaya, A. V. Pomelov, and É. V. Morozova | 13 | 20 |
| Dynamics of Activity of Auxins, Gibberellins, and Natural Growth Inhibitors during Ontogenesis of Tall and Short Corn — N. N. Bagrationi | 19 | 27 |
| α-Amylase Activity of the Aleurone Layers of Chronologically Old and Young Wheat Seeds during Germination and under Hormonal Influence — I. G. Artsruni and G. A. Panosyan | 23 | 32 |
| Storage Proteins of the Castor Seed Endosperm and Embryo and Their Mobilization during Germination — M. I. Dmitrieva, A. M. Sobolev, and V. M. Kirillova | 29 | 40 |
| Effect of Dehydration on Nucleotidase Activity and Structure of Cytoplasmic RNase in Leaves of Diamant Wheat — G. I. Blekhman | 37 | 50 |
| Structural-Functional Characteristics of the Surface Membrane of Protoplasmic Drops Obtained from Cells of Characeous Algae. IV. Investigation of Membrane Electrical Properties by Current Clamp and Potential Clamp Methods — E. D. Prishchepov, V. K. Andrianov, G. A. Kurella, and A. B. Rubin | 44 | 59 |
| Lectin Receptors on the Tonoplast and Agglutination of Isolated Vacuoles — R. K. Salyaev and V. Ya. Kuzevanov | 55 | 73 |
| Blue Light as a Factor in Regulation of RNA-Polymerase Activity in Barley Seedlings — N. P. Voskresenskaya, I. S. Drozdova, E. G. Romanko, S. Yu. Selivankina, V. A. Kuroedov, Kh. A. Sharenkova, and A. A. Nichiporovich | 62 | 82 |
| Competitive Influence of Quercetin and Bicarbonate on $CF_1$ ATPase as a Means of Regulation of Photophosphorylation — I. M. Zhestkova and Yu. G. Molotkovskii | 69 | 90 |

## Volume 31, Number 1, Part 2 January-February, 1984

| | | |
|---|---|---|
| Electron Transport and the System of Coupling with Photophosphorylation in Chloroplasts of *Ruta graveolens* Tissue Culture — S. G. Yashina, V. L. Shmeleva, V. S. Polevaya, and B. N. Ivanov | 77 | 98 |
| Photosystem Activity and Spectral Properties of Chlorophyll in Double Chlorophyll b-Deficient *Chlamydomonas* Mutants with Inactive PS I — V. G. Ladygin | 83 | 104 |
| Production of Photoactive Forms of Protochlorophyllide under the Influence of Oxygen — L. M. Vorob'eva, I. G. Nazarova, and A. A. Krasnovskii | 92 | 114 |
| Properties of Free and Membrane-Bound Ribulose-1,5-biphosphate Carboxylase/Oxygenase in the Process of Chloroplast Biogenesis — K. A. Aliev, V. N. Vasil'eva, and Yu. S. Nasyrov | 100 | 124 |
| Quantitative Isolation, Fractionation, and Characterization of Ribulose-1,5-biphosphate Carboxylase from *Chlorella* Cells — T. I. Kasatkina, N. A. Pronina, and V. E. Semenenko | 105 | 130 |
| Distribution of Plasmodesmata in the Rhizodermis along the Root Axis in *Trianea bogotensis* — E. B. Kurkova and D. B. Vakhmistrov | 115 | 141 |

Phosphatase Activity of Wheat Roots in Connection with the Availability of Phosphorus to the Plants — D. M. Sedenko and M. G. Zaitseva..... 120 146
Suppression of Invertase Activity in Sugar Beet Conducting Bundles as an Essential Condition for Sucrose Transport — I. M. Dubinina, E. A. Burakhanova, and L. F. Kudryavtseva..... 126 153
Absolute Content and Extractability of Grape Berry Lipids — E. L. Belenko, E. N. Datunashvili, V. D. Tsydendambaev, and A. G. Vereshchagin..... 134 162
Fatty Acid Composition of Lipids in Leaves and Generative Organs of Corn — E. B. Kirichenko, A. B. Kirichenko, and L. V. Andreev..... 139 168
Frost Resistance of Norway Spruce Seedlings — J. Salai, L. A. Nezgovorov, L. P. Terkulova, and O. A. Krasavtsev..... 144 174

REVIEW
Study of Components of Dark Respiration in Plants as a Function of Environmental Factors — N. T. Nilovskaya and M. O. Smirnov..... 149 188

## Volume 31, Number 2, Part 1 March-April, 1984

Peculiarities of Electrophysiological Investigations of the Vacuolar Membrane in Cells of Higher Plants — A. M. Korzun, R. K. Salyaev, and V. Ya. Kuzevanov. . . . . 159 213
Cation-Dependent ATPase Activity of Membranes Isolated from Corn Roots — N. I. Tikhaya, G. B. Maksimov, N. E. Mishustina, E. B. Kurkova, A. Yu. Batov, T. V. Semenova, K. A. Tazabaeva, and D. B. Vakhmistrov . 166 221
Histochemical Investigation of Inclusions Forming in Chloroplasts during Photosynthesis in an Atmosphere Containing 0.08% $CO_2$ and 3% $O_2$ — N. V. Paramonova . . . . . 174 229
Photosynthetic $CO_2$ Exchange of the Barley Leaf and Age Changes of It in Plants Grown under Light of Different Spectral Composition — N. P. Voskresenskaya, A. V. Kumakov, and I. S. Drozdova. . . . . 180 233
Localization of Membrane-Bound and Soluble Forms of Carbonic Anhydrase in the *Chlorella* Cell — N. A. Pronina and V. E. Semenenko . . . . . 187 241
Content of Fraction I Protein (Ribulose Bisphosphate Carboxylase/Oxygenase) and Its Activity in $C_3$ and $C_4$ Plants — S. N. Maevskaya, S. Yu. Voevudskaya, Nguen Tkhi Ti, and T. F. Andreeva. . . . . 196 252
Relationship of Specific Leaf Weight to the Irradiation Density of Adaptation and PAR Regime in Some Plant Species — Kh. G. Tooming and T. Kh. Tammets. . . . . 201 258
Quercetin and Bicarbonate Regulation of Photosynthesis in Intact Spinach Chloroplasts and *Euglena* Cells — I. M. Zhestkova and Yu. G. Molotkovskii. . . . . 208 266
Investigation of Light-Induced Changes in Cytochromes of the Photosynthetic Electron Transport Chain under Continuous Illumination — B. N. Ivanov, V. L. Shmeleva, and T. K. Pigulevskaya . . . . . 214 273
Electrophoretic Investigation of Pigment–Protein Complexes in Relation to Light-Dependent Chlorophyll Destruction in American Arborvitae — L. G. Tarasenko, P. I. Lis, V. N. Gvardiyan, and E. V. Khodasevich . 221 281
Metabolism of Ribose-5-phosphate in the Association of the Fern *Azolla* with $N_2$-Fixing Cyanobacteria — Dang Suen N'y and P. A. Kolesnikov . . . . . 227 288

## Volume 31, Number 2, Part 2 March-April, 1984

**Effect of Abscisic Acid on RNA Synthesis and RNA-Polymerase Activity in Barley Leaves** — E. G. Romanko, S. Yu. Selivankina, V. A. Kuroedov, A. K. Ovcharov, Kh. A. Sharenkova, and O. N. Kulaeva . . . . . 233 294
**Purification and Study of the Cytoplasmic RNase of Diamant Wheat Leaves. Effect of Dehydration on Structure of the Enzyme** — G. I. Blekhman . . . . . 239 302
**Restriction Analysis of Cotton Chloroplast DNA** — N. A. Rakhmatov, T. Yusupov, and A. P. Ibragimov . . . . . 248 312
**Metabolism of Endogenous Phenolic Compounds in Grape** — S. V. Durmishidze, A. G. Shalashvili, A. N. Sopromadze, and D. I. Gulbani . . . . . 253 317

Conjugates of Picloram and 2,4-D with Mustard Oils in Plants of the Family Cruciferae — D. I. Chkanikov, N. N. Pavlova, A. M. Makeev, and T. A. Nazarova. . . . . 257 321
Phytase of Germinating Cotton Seeds and Its Properties — M. N. Valikhanov, R. P. Igamnazarov, D. K. Asamov, and M. M. Rakhimov . . . . . 263 328
Subcellular Localization of Aconitate Hydratase Isoforms in Higher Plants — A. A. Zemlyanukhin, A. T. Eprintsev, L. A. Zemlyanukhin, and A. U. Igamberdiev . . . . . 270 337
Adaptive Properties of Glutamine Synthetase and Glutamate Dehydrogenase from Roots of Winter Wheat Seedlings Growing at Different Temperatures — N. D. Alekhina, A. I. Klyuikova, and S. I. Gerasimova . . . . . 276 344
Phospholipid Composition of Plasma Membranes in Cells of Corn Seedling Roots — G. F. Nasyrova and T. A. Palladina . . . . . 282 351
Effect of Phytohormones on Development of Brown Rust on Isolated Wheat Leaves — I. M. Levin . . . . . 286 356
Activity of Esterases That Hydrolyze Soluble Phenolic Acid Esters in Leaves of Rust-Resistant and Sensitive Wheat Varieties — V. V. Chigrin, L. V. Rozum, T. M. Sidorova, and M. N. Zaprometov . . . . . 291 362

REVIEW

Mechanisms of Nutrient Accumulation by the Phloem Endings — J. L. Bonnemain, S. Delrot, and J. P. Despeghel . . . . . 295 367

METHODS

Isolation of Ribulose Bisphosphate Carboxylase from Euglena with the Aid of Polyethylene Glycol — A. D. Volodarskii, V. I. Shushanashvili, and O. P. Orlov. . . . . 309 395
Determination of Radioactivity in Plant Material by Means of Liquid Scintillation Counting — Kh. Ya. Khein, Yu. L. Tsel'niker, and V. L. Voznesenskii . . . . . 314 401

## Volume 31, Number 3, Part 1 May-June, 1984

Mathematical Model Describing Changes in Photosynthesis of Higher Plants in Relation to Environmental Parameters — A. V. Malinovskii, Yu. A. Berkovich, and I. V. Time. . . . . 321 421
Light-Induced Changes in Size of the Photosynthetic Unit of Photosystem I in Blue-Green Algae — E. N. Zavorueva and V. N. Belyanin . . . . . 326 427
Kinetics of Photosynthesis and Respiration in Corn after a Dark Period — I. A. Murei . . . . . 331 433
Development of Functional Activity in Chloroplasts of Conifer Seedlings under Light and in the Dark — E. I. Simonova, L. I. Kudinova, A. P. Zotikova, N. S. Novikova, and Yu. A. Pshenichkina. . . . . 339 442
Oxygen-Dependent Induction of Synthesis of the $CO_2$-Dependent Soluble Form of Carbonic Anhydrase in *Chlorella* Cells — Z. M. Ramazanov, N. A. Pronina, and V. E. Semenenko . . . . . 344 448
Capacity of the Glycine Oxidation System in Pea Leaves — A. I. Maslov, A. N. Kuz'min, and R. N. Demidova. . . . . 351 456
β-Cyanoalanine Synthase of *Elodea canadensis*: Detection, Localization, Purification, and Some Properties — S. S. Timofeeva, V. Z. Kraeva, É. A. Tolosa, and V. V. Velikodvorskaya. . . . . 356 462
Changes of Potassium Content in Grape Bunches during Accumulation of Sugars in the Berries — O. K. Tsitsilashvili, A. S. Okanenko, B. I. Bershtein, P. D. Bibilashvili, T. G. Derbeneva, R. A. Namgaladze, and L. M. Sikharulidze. . . . 363 469
Effect of Removing Part of the Spike or Leaves on Assimilate Transport and Photosynthetic Productivity of Spring Wheat — V. I. Chikov, S. B. Chemikosova, G. G. Bakirova, and N. I. Gazizova . . . . . 368 475
Absolute Content and Fatty Acid Composition of Lipids in Ripening Grape Berries — E. L. Belenko, E. N. Datunashvili, V. D. Tsydendambaev, and A. G. Vereshchagin. . . . . 374 482

Ferricyanide Reductase Activity of Water Thyme Leaves and Its Relationship to Energy Metabolism — V. A. Novak and A. I. Miklashevich . . . . . 380 489
Redox Components in the Plasmalemma of Plant Cells — E. B. Kurkova and M. L. Verkhovskaya . . . . . 386 496
Content of Free and Bound Gibberellins and Polyamines in Pea Root Meristem after Cadmium Treatment at Different Phases of the First Cell Cycle — Yu. P. Mel'nichuk, A. S. Sobolev, and F. L. Kalinin. . . . . 393 502

## Volume 31, Number 3, Part 2 May-June, 1984

Influence of 6-Benzylaminopurine on RNA-Polymerase Activity, Activity of Ribulose Bisphosphate Carboxylase, and Its Content in Barley Leaves during Cultivation under Red and Blue Light — E. G. Romanko, S. Yu. Selivankina, Kh. A. Sharenkova, I. S. Drozdova, N. P. Voskresenskaya, O. N. Kulaeva, and A. A. Nichiporovich. . . . . 401 509
Effect of Ammonium on Hormonal and Substrate Induction of Nitrate Reductase in Isolated Corn Cockle Embryos — Vladimir V. Kuznetsov . . . 408 517
Comparative Study of Assimilation of Molecular and Nitrate Nitrogen by Bean Nodules and Organs — N. A. Vakhaniya, N. D. Abashidze, and N. N. Nutsubidze. . . . . 415 525
Changes in Antigen Structure of the Potato Tuber Plasmalemma under the Influence of Abscisic Acid — É. P. Ladyzhenskaya, M. A. Protsenko, D. K. Kadyrzhanova, and N. P. Korableva . . . . . 419 530
Auxin-Dependent Ethylene Biosynthesis in Wheat Plants Infected with the Agent of Stem Rust — D. I. Chkanikov, E. N. Artemenko, A. M. Shabanova, and A. M. Umnov. . . . . 425 536
Production of Callus Tissues and Induction of Organogenesis in *Pisum sativum* — V. A. Kunakh, L. I. Voityuk, E. G. Alkhimova, and L. K. Alpatova. . . . . 430 542
Endogenous RNA-Synthesizing Activity of Cellular Organelles from Leaves of Citrus Plants with Different Frost Resistance — D. I. Dzhokhadze and N. G. Tabatadze . . . . . 436 549
Superoxide Dismutase of Pea Roots under the Influence of High NaCl Concentrations — G. A. Kayupova and L. K. Klyshev . . . . . 441 555
Physiological Aftereffects of Sublethal Temperature Shock in the Blue-Green Alga *Synechocystis aquatilis* — M. Yu. Sharipova and B. V. Gromov. . . . . 446 560
Effect of Cartolin on Dormancy and Frost Resistance of Woody Plants — G. V. Kuzina, L. D. Karnikova, and G. A. Kalinina . . . . . 451 566

REVIEW

Endogenous Regulation of Assimilate Transport and Source–Sink Relations in Plants — A. L. Kursanov. . . . . 462 579

## Volume 31, Number 4, Part 1 July-August, 1984

Changes of Auxin Content in Pea Seedlings Treated with Ethylene or Ethylene Donors — D. I. Chkanikov, O. D. Mikityuk, A. Yu. Makoveichuk, A. M. Umnov, and A. M. Makeev. . . . . 477 613
Possible Role of N-Malonyl-d-tryptophan as a Source of Auxin in Plants — N. I. Rekoslavskaya and K. Z. Gamburg . . . . . 481 617
Isolation of Ethylenediamine-Resistant Lines in Tobacco Tissue Culture — N. V. Khadeeva and A. N. Maisuryan . . . . . 488 625
Effect of Amino Acids on a *Dioscorea deltoidea* Cell Suspension Culture and Its Regeneration after Storage at −196°C — L. A. Volkova, A. S. Popov, and G. A. Samygin . . . . . 494 632

Engl./Russ.

Factors Affecting Survival of Potato Stem Apices after Deep-Freezing — A. V. Manzhulin . . . . . 500 639
Aftereffect of Phosphorus Starvation on Content of Amino Acids and Putrescine in Pumpkin Plants — O. N. Kazuto. . . . . 505 646
Phenolic Compounds in the Pollen of Oil Poppy — V. É. Pontovich, R. A. Prokhorchik, and A. P. Volynets. . . . . 509 652
Factors behind Decrease of Nitrate Reductase Activity in Leguminous Plants under Salinization — P. M. Safaraliev, N. P. L'vov, A. A. Mardanov, and V. L. Kretovich . . . . . 514 658
Effect of pH of the Medium on Induction of Nitrate Reductase in Isolated Cucumber Cotyledons and Corn Cockle Embryos: a Comparative Study — V. V. Kuznetsov, M. Ulitzsch, N. N. Borisova, and E. Preusser . . . . . 521 666
Rhythms of Peroxidase Activity in Tissues of Scotch Pine Needles — N. N. Kozhevnikova, N. E. Sudachkova, R. G. Khlebopros, and V. P. Cherkashin. . . . . 527 674
Dynamics of Changes in Ultrastructure of Corn Seedling Mitochondria under Conditions of Anoxia — I. P. Generozova, A. G. Snkhchyan, and B. B. Vartapetyan . . . . . 535 683
Effect of Valinomycin on Permeability to $K^+$ and Oxygen Consumption as a Function of the Physiological State of Wheat Roots — V. Ya. Alekseeva, B. A. Nikolaev, L. Kh. Gordon, O. O. Polygalova, A. N. Tsentsevitskii, and V. M. Pakhomova . . . . . 544 692

## Volume 31, Number 4, Part 2 July-August, 1984

Photoexcitable Channels in the Plasmalemma of Nitellopsis obtusa Cells — M. Gyenes and R. Saxena . . . . . 551 699
Proton-Dependent Sucrose Transport across Plasma Membranes of Heracleum sosnovskyi Phloem Cells — V. A. Opritov, O. V. Orlova, and V. A. Kalinin . . . . . 555 704
Pathways of Accumulation of Free Proline in an NaCl-Resistant Cell Line of Nicotiana sylvestris — I. G. Kir'yan and N. I. Shevyakova . . . . . 561 712
Structural-Functional Organization of the Leaf and Plant Productivity upon Introduction of Different Doses of Cobalt — G. A. Lipskaya . . . . . 568 721
Activation of Photophosphorylation by Oxaloacetic Acid in Leaves of $C_4$ Plants — V. Yu. Lyubimov . . . . . 574 728
Evidence for Preservation of Part of the Light-Harvesting Complex in a Chlorophyll b-Deficient Mutant of Hordeum vulgare L. — V. G. Ladygin. . . . . 578 733
Changes in the Content of Fatty Acids and Localization of Carotenoids in the Androecium and Gynoecium of Pisum sativum and Their Role in the Process of Fruit Formation — S. I. Lebedev, S. P. Sushko, and N. P. Savchenko . . . . . 584 740
Localization of Ferredoxin and Plastocyanin in Assimilating Tissues of Corn Leaves — E. N. Mukhin, N. F. Neznaiko, Z. V. Maevskaya, and K. Ya. Bil'. . . . . 589 746
Role of Light of Different Spectral Composition in Ontogenesis of the Leaf — V. M. Postovalova, R. A. Karnachuk, and E. V. Prokhorova . . . . . 594 752
States of Plants Intermediate between Anabiosis and Active Life (Mesabiosis) — A. M. Goldovskii . . . . . 599 758

REVIEW

Mechanism Governing the Appearance of Carbon Isotope Effects during Photosynthetic Assimilation of $CO_2$ — A. A. Ivlev . . . . . 605 765

METHODS

Incorporation of [$^{14}$C]Leucine into Proteins of Potato Tuber Plasmalemma — N. V. Lyubimova and G. R. Verulidze. . . . . 614 784
Isolated Lupine Cotyledons as a System for Study of the Mechanism of Cytokinin Action — V. V. Zayakin . . . . . 620 792

## Volume 31, Number 5, Part 1 September-October, 1984

Transport of $Na^+$, $K^+$, and $H^+$ across the Plasmalemma of $K^+$-Deficient Cells of the Halophilic Alga *Dunaliella* Maritima — Yu. V. Balnokin and A. V. Medvedev . . . . . 625 805

Enhanced Rate of Spermidine Formation in an NaCl-Resistant Cell Line of *Nicotiana sylvestris* — N. I. Shevyakova, I. G. Kir'yan, and B. P. Strogonov . . . . . 630 810

Effect of Chloride Salinization on the State of Pea Chloroplasts — B. A. Alina, B. G. Baimukhasheva, and L. K. Klyshev . . . . . 636 817

Relationship of Primary $CO_2$ Fixation Pathways in $C_4$-Plants of Deserts under the Influence of Different Temperatures — V. I. P'yankov. . . . . 644 826

Effect of Water Deficit on Symbiotic Nitrogen Fixation in Soybean — K. Swaraj, S. V. Shishchenko, G. I. Kozlova, I. N. Andreeva, and G. Ya. Zhiznevskaya . . . . . 650 833

Water Exchange of Vegetable Marrow Fruits as Studied with the Aid of a Tritium Label — É. A. Goncharova, G. V. Udovenko, G. A. Nechiporenko, and V. N. Zholkevich. . . . . 657 841

Effect of Manganese Ions on Ultrastructural Organization and Polypeptide Composition of Etioplast Membranes — L. A. Khmara . . . . . 662 847

Formation of Pheophytin *a* in Tomato Leaves under the Influence of Hydrel — V. E. Sudovtsov and N. M. Yamshchikova. . . . . 667 851

Isolation and Polypeptide Composition of the Protochlorophyllide Holochrome of Etiolated Wheat Leaves — I. N. Stadnichuk and G. Walter . . . . . 671 856

Size of Metabolic Pools of Assimilates in Photosynthesizing Tissues of the Plant — I. A. Murei. . . . . 678 864

Pigment Content, Content of Photosystem Reaction Centers, and Potential Photosynthesis in Barley Seedlings Reared under Blue and Red Light of Different Intensity — N. G. Bukhov, A. D. Rozhkovskii, A. G. Chetverikov, and N. P. Voskresenskaya . . . . . 687 874

Total Activity of K,Mg-ATPase and Orientation of Vesicles in Plant Cell Membrane Preparations — N. I. Tikhaya, G. B. Maksimov, N. V. Koren'kova, and D. B. Vakhmistrov . . . . . 693 882

Oxidation of Malate by Sugar Beet Root Mitochondria Isolated at Different Stages in Ontogenesis of the Plants — A. G. Shugaev and É. I. Vyskrebentseva . . . . . 699 889

## Volume 31, Number 5, Part 2 September-October, 1984

Effect of Fungicides on Respiratory Gas Exchange of Wheat Roots — G. F. Safina-Ostashevskaya and L. Kh. Gordon. . . . . 705 896

Gibberellin-Like Substances in Different Elements of the Fruit of Opium Poppy during Ontogenesis — V. É. Pontovich, B. A. Rybalova, and T. G. Mironenko. . . . . 710 902

Effect of Indoleacetic Acid on Dynamics of Cytokinin Activity in Bean Leaf Cuttings during Their Rooting — Le Tkhi Muoi, M. A. Yusufova, V. I. Kefeli, and L. M. Serova. . . . . 716 909

Analysis of Swelling Formation on Roots under the Influence of Isopropyl N-(3-Chlorophenyl)carbamate — E. I. Bystrova. . . . . 720 914

Dynamics of Admission and Decomposition of 2-Chloroethylphosphonic Acid in Winter Rye Plants — O. É. Kreitsberg, O. I. Romanovskaya, and D. A. Pavulinya. . . . . 726 921

Physiological Maturity of the Ripening Seeds of Fine-Fibered Cotton — L. K. Kulieva, N. V. Obrucheva, and A. A. Prokof'ev. . . . . 732 928

Characteristics of Hordein Biosynthesis and Accumulation in Barley Endosperm — Yu. M. Sivolap and P. S. Tikhonov. . . . . 737 934

Antibacterial Activity of Diatoms. I. Lipids of *Nitzschia ovalis* and Their Antibacterial Activity — I. V. Maksimova, O. O. Malakhovskaya, and E. G. Pryadil'shchikova. . . . . 745 944

Repair of Cells of the Blue-Green Alga *Synechocystis aquatilis* after Heat Shock — M. Yu. Sharipova and B. V. Gromov. . . . . 751 951

Physiological Role of Tendrils in the Vital Activity of Climbing Plants — V. O. Kazaryan, G. E. Vartanyan, and Zh. M. Akopova..... 755 956

REVIEWS

Delayed Fluorescence of Photosystem I in Green Plants — I. R. Vasil'ev, D. N. Matorin, and A. B. Rubin..... 761 961

Heat-Shock Proteins of Plants — V. K. Voinikov, G. G. Ivanova, and A. V. Gudikovskii..... 768 970

METHODS

Device for Conducting Electrophoresis in Slabs of Polyacrylamide Gel — A. A. Moskalenko, O. Machold, and Yu. E. Erokhin..... 776 988

Rapid Determination of Shoot Surface in Conifers — A. T. Koppel, and J. M. Frey..... 783 1000

## Volume 31, Number 6, Part 1 November-December, 1984

Isolation of a Fraction of Cytoplasmic Proteins Possessing Channel-Forming Activity from Characeous Algae — V. M. Grishchenko, A. A. Aleksandrov, and G. N. Berestovskii. . . . . 787 1013

Purification and Some Properties of Lectin from the Cell Wall Fraction of Sugar Beet Root — G. Ya. Aleksidze, É. I. Vyskrebentseva, and N. P. Korolev . . . . . 793 1021

Mobilization of Phytin in Castor Seeds during Germination — M. I. Dmitrieva and A. M. Sobolev . . . . . 799 1028

Copper Stimulation of Initial Growth in Barley Roots — G. R. Ozolinya, L. P. Lapinya, and D. R. Klyavinya. . . . . 805 1036

Effect of Benzyl Alcohol on Photosynthetic Activity of Pea Chloroplasts — B. K. Semin and A. Ya. Kormanovskii . . . . . 812 1043

Parameters of Integral Pools of Assimilates in Photosynthesizing Tissues of the Plant — I. A. Murei. . . . . 817 1049

Carbon Transport in Soybean: Distribution of $^{14}C$ From Photosynthesizing Fruits — E. A. Karpov . . . . . 825 1059

Role of Proteins in Structural Organization of the Pigment System of Winter Wheat — N. N. Musienko, I. M. Menitskaya, and A. A. Okanenko. . . . . 831 1066

Integration between Phytochrome and Blue Light in Photoregulation of Anthocyan Formation in Buckwheat Seedlings — A. K. Tokhver and U. V. Myadamyurk. . . . . 836 1071

Effect of Chloride Salinization on the State of Ribosomes of Pea Chloroplasts — B. A. Alina, B. G. Baimukhasheva, and L. K. Klyshev. . . 841 1077

Purification and Study of an Enzyme with 2':3'-Nucleotidase Activity in Leaves of Diamant and Bezenchukskaya 98 Wheat during Dehydration — G. I. Blekhman . . . . . 846 1083

Possible Physiological Role for the Endodermal Jump of the Water Potential in the Root System — T. A. Borisova, N. P. Lazareva, and V. N. Zholkevich. . . . . 853 1092

## Volume 31, Number 6, Part 2 November-December, 1984

Relationship between Water Transport through the Xylem and the Rate of Transpiration in Scotch Pine — B. M. Veselkov and P. V. Tikhov. . . . . 859 1099

Water Uptake into Corn Roots as a Function of Temperature — Z. M. Burkina and G. M. Guseinova . . . . . 865 1107

Regulation of Glutamine Synthetase and Glutamate Dehydrogenase Activities during Heterotrophic and Nitrate Nutrition of Plants — S. Yu. Baskakova and S. F. Izmailov . . . . . 870 1113

Ultrastructure and Nitrogen-Fixing Activity of Red Clover Nodules on Application of Molybdenum — E. E. Fedorova and Yu. A. Potatueva . . . . 876 1120

Characteristics of Symbiotic Nitrogen-Fixing Systems in Promising Varieties of Yellow and White Lupine — G. Ya. Zhiznevskaya, M. G. Shirinskaya, I. N. Andreeva, P. N. Dubrovo and G. I. Kozlova. . . 882 1127

Productivity and Dimensions of Symbiotic Nitrogen Fixation by Lupine Plants as a Function of the Level of Nitrogen Nutrition — B. A. Yagodin, M. V. Vil'yams, and Yu. G. Sazonov . . . . . 890 1136
Changes of Phytohormone Activity with a Shift of the Flowering Gradient in Photoperiodically Neutral Trapezond Tobacco — V. A. Negretskii, V. N. Lozhnikova, and M. Kh. Chailakhyan. . . . . 896 1143
Effect of Cytokinin on Plant Growth and Chlorophyll Content in Leaves under Conditions of Atmospheric Pollution — V. P. Bessonova, I. I. Lyzhenko, O. F. Mikhailov, and O. N. Kulaeva. . . . . 901 1149
Kinetic Characteristics of 2,4-D Conjugation in Corn Cell Culture — S. G. Shvetsov and K. Z. Gamburg. . . . . 905 1154
Changes in the Physiological State of Wheat Root Cells during the Process of Adaptive Aging — V. M. Pakhomova and L. Kh. Gordon . . . . . 912 1162
Effect of the Opaque-2 Recessive Allele on Properties of Root Cell Plasma Membranes in Corn Seedlings — G. E. Komarova, T. A. Palladina, T. N. Gynkull, G. F. Nasyrova, and A. F. Palii . . . . . 919 1170

METHODS

Procedure for Electrophysiological Research on Membranes of Isolated Vacuoles — A. M. Korzun, V. Ya. Kuzevanov, and R. K. Salyaev. . . . . 925 1186
Gas Chromatographic Determination of 4-Chlorophenoxyacetic Acid, a Stimulant of Fruit Formation in Tomato — V. Yu. Rakitin and V. V. Karyagin. . . . . 929 1191
